

**CARPETECTURE®**  
Colour Dimensions

Colour both influences and inspires the way people interact with the world around them. Like creating and admiring art, colour is unique to the human experience. DESSO has created a collection that compliments colours and highlights the strength and individuality of modern architecture and design.

The use of colour to delineate and redefine space is central to design. It is called upon to transform a single space into several, invite work or play, and most importantly, to forge a single and lasting impression.

Colour inspires the senses. Colour creates character.

The use of colour breathes life into the structure and body of a building. It animates the space in a way that nothing else can, by creating a sense of movement and continuity, naturally drawing the eye, and the mind, through the surface.

Contemporary architecture calls for synchronicity from all its counterparts,  
and the Colour Dimensions collection delivers.

## Neo

The linear accents of Neo breathe colour into an interior, bringing to mind the corridors and vertical faces of architectural creation without overwhelming the space. Rays of light are an inspiration to the colour palette. The range of Neo Core options guarantees the creation of an expressive floor.

## Flux

The combination of matt and shiny yarn in the production of this carpet enhances its texture, presenting an immaculate appearance and co-ordinating with other fabrics of the interior design. With a lively, expressive linear pattern, Flux has an inner depth which is intensified by the effect of shafts of light. Colours are cool and smart, trendy yet elegant. **Cradle to Cradle certified.**

## Supira

Supira combines a rich structure with streaks of bold light, and its subtle high and low weave breathes body into its structure while providing strength of character. A dark background palette of stone colour and material tones - of anthracite, blue, brown and red - is highlighted with vibrant colour, giving an impression of three-dimensional depth.

## Madison

The natural feeling of movement and flow in Madison is the result of a luxurious mixture of light and dark, and the pattern plays with vertical stripes without becoming geometric. The creamy effect, combination of matt and shiny yarns, synchronized into a natural warmth.

## Tempra

Tempra characterises contemporary yet timeless practicality, taking reference from the vibrant and fast-moving society of today. With its dense low-level loop pile and a universally appealing selection of strong colours to choose from, this exceptionally hardwearing carpeting creates just the right lively style to inspire any busy creative team. The extensive 60 colour range includes 15 in broadloom. **Cradle to Cradle certified.**

## Torso

The Torso range excels itself in complementing the fusion of simplicity and functionality. Intense blues and greys wrestle with earthy harvest tones. These are today's and tomorrow's colour trends, combining elegance as well as quality and reliability. Torso's magnificent 60 strong colour range includes 20 in broadloom. Cradle to Cradle certified.

## Pallas

Pallas – an essential tile within a high-quality, contemporary collection. The abundant Pallas colour range suggests reliability, as of an ancient rock outcrop or country castle, calming the movement of bright, light-filled buildings and bringing together the contrasts of the interior space. **Cradle to Cradle certified.**

## About DESSO

DESSO has been manufacturing and marketing carpet for almost 80 years, and during that time it has earned a fine reputation as a reliable partner and creative designer. Today, it has two factories in Europe and specialist customer service centres throughout Europe, as well as in America, Asia, Africa, the Middle East and Australasia. CARPETECTURE® is a powerful example of the DESSO commitment to creative carpet design and its dedication to meet the needs of architects, interior designers, building owners, and end users. DESSO products can be found in offices, public buildings, banks, schools, universities, retail units, and care centres. Among its many highly valued customers are distinguished companies such as HSBC, Deutsche Bank, BNP Paribas, Allianz, Starwood Hotels, Marriott Hotels, Regus, KLM, Virgin Atlantic and many more.

## Corporate Responsibility/ Cradle to Cradle

DESSO has been taking measures to safeguard the environment for many years – long before it became popular to do so. With an ISO 14001 environmental quality accreditation, regular on-site checks by independent institutes ensure the best possible environmental production methods. In addition, every DESSO carpet and carpet tile carries a unique GUT test number to indicate it has passed GUT testing for contamination and emission. DESSO has initiatives for the re-use of carpet tiles to ease the burden on landfill, and an ongoing research programme for environmental awareness and recycling covers both product and packaging. DESSO continuously seeks to improve the environmental attributes of its products through product design development programmes while its manufacturing plants evaluate energy use and strive towards continuous reduction in waste and pollution.
