

The Floor is Yours

**CARPETECTURE®**  
Core Structures

Structure is a core element, and is interpreted in columns, planes and domes. Designers may utilise this interpretation to reinforce ideas and effects.

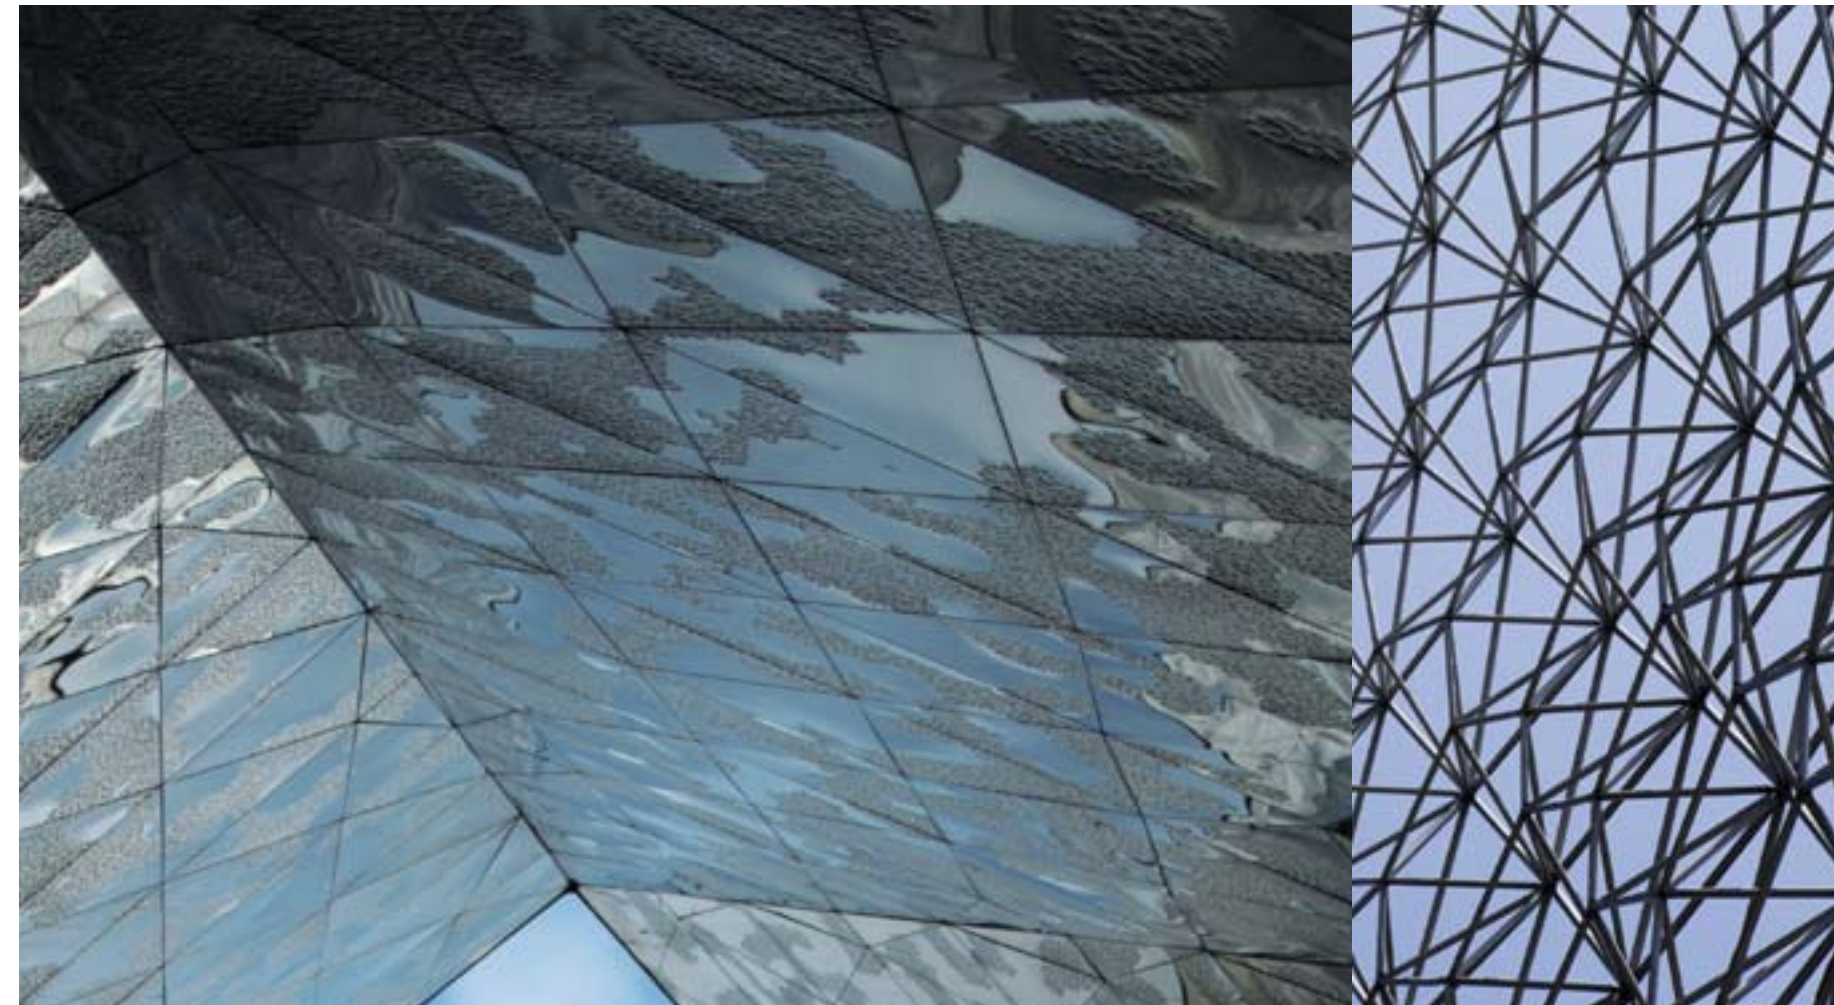

Pillars, wall surfaces, roofs and beams become concepts of repetition and randomness, simplicity and complexity.

Structure may be applied to define space, create units, articulate flow and movement, and to develop composition and modulation.

In this way design becomes inextricably linked to the very elements which give architecture its quality and excitement.

When core structure is given voice, it expresses meaning and richness, often becoming the most significant of all the architectural elements in the building.

This collection is inspired by the core structure of architectural design.

9501

# Verso

Verso offers a delicate, repeat pattern of contoured facets creating an elegant finish in neutral colourways emulating the look of a hard surface due to the flat nature of its structure. Subtle contrasts of grey, brown and beige give Verso its depth and liveliness without compromising perspective and elegance.

## Verso Bars

The neutral brown and grey weaves of Verso Bars present a striking finish of durable quality with an urban flavour imitating the look of a hard surface. In addition, the subtle pattern of Verso can be combined with Verso Bars to indicate a change of flow of design where the internal envelope of a building dictates and provides increased flexibility.

Verso 2912 – Verso Bars 2002  
Verso 9980 – Verso Bars 9970

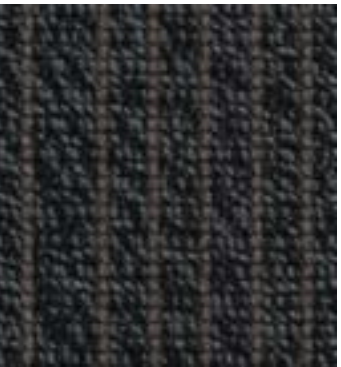

# Verso Grid

With its strong replication of rhythmic pattern, Verso Grid offers a powerful, distinct look as its lattice format provides added depth and dimension of an almost three dimensional quality incorporated within the flat nature of its structure.

## Wilton in Ribs

Wilton in Ribs takes inspiration from the simple repetition found in walls and windows emulating the look of wire framework, geometrically designed to withstand the test of time. Its reliability and timeless quality is accentuated in its bold yet welcoming tones.

# Pure

Pure is a modern office carpet tile, its precise yet subtly textured rib and mosaic effect add depth and dimension for a warmer, natural look. The neutral palette of grey, yellow and brown hues makes it easy to combine with other interior products in any environment.

# Wilton Profile

This strongly tactile carpet with its well-defined somewhat chunky yet geometrical structure evokes the strong cohesion and systematic composition of rafter and balustrade. The natural tones of Wilton Profile conjure up images of light filtering through a framework. It achieves an authentic and natural atmosphere within the working environment.

About DESSO

DESSO has been manufacturing and marketing carpet for almost 80 years, and during that time it has earned a fine reputation as a reliable partner and creative designer. Today, it has two factories in Europe and specialist customer service centres throughout Europe, as well as in America, Asia, Africa, the Middle East and Australasia. CARPETECTURE® is a powerful example of the DESSO commitment to creative carpet design and its dedication to answer the needs of architects, interior designers, building owners, and end users. DESSO products can be found in offices, public buildings, banks, schools, universities, retail shops, and care centres. Among its many highly valued customers are distinguished companies such as HSBC, Deutsche Bank, BNP Paribas, Allianz, Starwood Hotels, Marriott Hotels, Regus, KLM, Virgin Atlantic and many more.

Corporate Responsibility/ Cradle to Cradle

DESSO has been taking measures to safeguard the environment for many years – long before it became popular to do so. With an ISO 14001 environmental quality accreditation, regular on-site checks by independent institutes ensure the best possible environmental production methods. In addition, every DESSO carpet and carpet tile carries a unique GUT test number that proves it passes GUT tests for contamination and emission. We also have several initiatives for re-using carpet tiles to ease the burden on landfill, and our ongoing research programme for environmental awareness and recycling covers both product and packaging. DESSO continuously seeks to improve the environmental attributes of our products through product design development programmes whilst our manufacturing plants evaluate energy use and a continuous reduction in waste and pollution as well as process improvement.
